ANCHORETH

THE #1 DEFI URLS ECOSYSTEM 🚀

Empowering People and Organizations to Monetize, Enrich and Trade their URLs for a Profit in Crypto.

DISCLAIMER

PLEASE READ THE ENTIRETY OF THIS "NOTICE AND DISCLAIMER" SECTION CAREFULLY. NOTHING HEREIN CONSTITUTES LEGAL, FINANCIAL, BUSINESS OR TAX ADVICE AND YOU SHOULD CONSULT YOUR OWN LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S) BEFORE ENGAGING IN ANY ACTIVITY IN CONNECTION HERewith. NEITHER ANCHORETH LABS LTD (THE COMPANY), ANY OF THE PROJECT TEAM MEMBERS (THE ANCHORETH TEAM) WHO HAVE WORKED ON ANCHORETH (AS DEFINED HEREIN) OR PROJECT TO DEVELOP ANCHORETH IN ANY WAY WHATSOEVER, ANY DISTRIBUTOR/VENDOR OF ANCHORETH TOKENS (THE DISTRIBUTOR), NOR ANY SERVICE PROVIDER SHALL BE LIABLE FOR ANY KIND OF DIRECT OR INDIRECT DAMAGE OR LOSS WHATSOEVER WHICH YOU MAY SUFFER IN CONNECTION WITH ACCESSING THIS LIGHTPAPER, THE WEBSITE AT [HTTPS://ANCHORETH.COM/](https://anchoreth.com/) (THE WEBSITE) OR ANY OTHER WEBSITES OR MATERIALS PUBLISHED BY THE COMPANY.

All contributions will be applied towards the advancing, promoting the research, design and development of, and advocacy for a bridge between Linux and blockchain, giving DApps massive processing power and industrial-grade programmability. The Company, the Distributor and their respective affiliates would develop, manage and operate ANCHORETH.

Nature of the Lightpaper: The Lightpaper and the Website are intended for general informational purposes only and does not constitute a prospectus, an offer document, an offer of securities, a solicitation for investment, or any offer to sell any product, item or asset (whether digital or otherwise). The information herein may not be exhaustive and does not imply any element of a contractual relationship. There is no assurance as to the accuracy or completeness of such information and no representation, warranty or undertaking is or purported to be provided as to the accuracy or completeness of such information. Where the Lightpaper or the Website includes information that has been obtained from third party sources, the Company, the Distributor, their respective affiliates and/or the ANCHORETH team have not independently verified the accuracy or completion of such information. Further, you acknowledge that circumstances may change and that the Lightpaper or the Website may become outdated as a result; and neither the Company nor the Distributor is under any obligation to update or correct this document in connection therewith.

Token Documentation: Nothing in the Lightpaper or the Website constitutes any offer by the Company, the Distributor or the ANCHORETH team to sell any ANCHORETH (as defined herein) nor shall it or any part of it nor the fact of its presentation form the basis of, or be relied upon in connection with, any contract or investment decision. Nothing contained in the Lightpaper or the Website is or may be relied upon as a promise, representation or undertaking as to the future performance of ANCHORETH. The agreement between the Distributor and you, in relation to any sale and purchase of ANCHORETH, is to be governed by only the separate terms and conditions of such agreement.

The information set out in the Lightpaper and the Website is for community discussion only and is not legally binding. No person is bound to enter into any contract or binding legal commitment in relation to the acquisition of ANCHORETH, and no virtual currency or other form of payment is to be accepted on the basis of the Lightpaper or the Website. The agreement for sale and purchase of ANCHORETH and/or continued holding of ANCHORETH shall be governed by a separate set of Terms and Conditions or Token Purchase Agreement (as the case may be) setting out the terms of such purchase and/or continued holding of ANCHORETH (the Terms and Conditions), which shall be separately provided to you or made available on the Website. The Terms and Conditions Documentation must be read together with the Lightpaper. In the event of any inconsistencies between the Terms and Conditions and the Lightpaper or the Website, the Terms and Conditions shall prevail.

Deemed Representations and Warranties: By accessing the Lightpaper or the Website (or any part thereof), you shall be deemed to represent and warrant to the Company, the Distributor, their respective affiliates, and the ANCHORETH team as follows: in any decision to purchase any ANCHORETH, you have shall not rely on any statement set out in the Lightpaper or the Website; you will and shall at your own expense ensure compliance with all laws, regulatory requirements and restrictions applicable to you (as the case may be);

you acknowledge, understand and agree that ANCHORETH may have no value, there is no guarantee or representation of value or liquidity for ANCHORETH, and ANCHORETH is not an investment product including for any speculative investment; none of the Company, the Distributor, their respective affiliates, and/or the ANCHORETH team members shall be responsible for or liable for the value of ANCHORETH, the transferability and/or liquidity of ANCHORETH and/or the availability of any market for ANCHORETH through third parties or otherwise; and you acknowledge, understand and agree that you are not eligible to purchase any ANCHORETH if you are a citizen, national, resident (tax or otherwise), domiciliary and/or green card holder of a geographic area or country (i) where it is likely that the sale of ANCHORETH would be construed as the sale of a security (howsoever named), financial service or investment product and/or (ii) where participation in token sales is prohibited by applicable law, decree, regulation, treaty, or administrative act (including without limitation the United States of America, Canada, New Zealand, People's Republic of China (but not including the special administrative regions of Hong Kong and Macau, and the territory of Taiwan), Thailand, and the Socialist Republic of Vietnam); and to this effect you agree to provide all such identity verification document when requested in order for the relevant checks to be carried out.

The Company, the Distributor and the ANCHORETH team do not and do not purport to make, and hereby disclaims, all representations, warranties or undertaking to any entity or person (including without limitation warranties as to the accuracy, completeness, timeliness or reliability of the contents of the Lightpaper or the Website, or any other materials published by the Company or the Distributor). To the maximum extent permitted by law, the Company, the Distributor, their respective affiliates and service providers shall not be liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including, without limitation, any liability arising from default or negligence on the part of any of them, or any loss of revenue, income or profits, and loss of use or data) arising from the use of the Lightpaper or the Website, or any other materials published, or its contents (including without limitation any errors or omissions) or otherwise arising in connection with the same. Prospective purchasers of ANCHORETH should carefully consider and evaluate all risks and uncertainties (including financial and legal risks and uncertainties) associated with the ANCHORETH token sale, the Company, the Distributor and the ANCHORETH team.

Informational purposes only: The information set out herein is only conceptual, and describes the future development goals for ANCHORETH to be developed. In particular, the project roadmap in the Lightpaper is being shared in order to outline some of the plans of the ANCHORETH team, and is provided solely for INFORMATIONAL PURPOSES and does not constitute any binding commitment. Please do not rely on this information in making purchasing decisions because ultimately, the development, release, and timing of any products, features or functionality remains at the sole discretion of the Company, the Distributor or their respective affiliates, and is subject to change. Further, the Lightpaper or the Website may be amended or replaced from time to time. There are no obligations to update the Lightpaper or the Website, or to provide recipients with access to any information beyond what is provided herein.

Regulatory approval: No regulatory authority has examined or approved of any of the information set out in the Lightpaper or the Website. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of the Lightpaper or the Website does not imply that the applicable laws, regulatory requirements or rules have been complied with.

Cautionary Note on forward-looking statements: All statements contained herein, statements made in press releases or in any place accessible by the public and oral statements that may be made by the Company, the Distributor and/or the ANCHORETH team, may constitute forward-looking statements (including statements regarding intent, belief or current expectations with respect to market conditions, business strategy and plans, financial condition, specific provisions and risk management practices). You are cautioned not to place undue reliance on these forward-looking statements given that these statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results to be materially different from that described by such forward-looking statements, and no independent third party has reviewed the reasonableness of any such statements or assumptions. These forward-looking statements are applicable only as of the date indicated in the Lightpaper, and the Company, the Distributor as well as the ANCHORETH team expressly disclaim any responsibility (whether express or implied) to release any revisions to these forward-looking statements to reflect events after such date.

References to companies and platforms: The use of any company and/or platform names or trademarks herein (save for those which relate to the Company, the Distributor or their respective affiliates) does not imply any affiliation with, or endorsement by, any third party. References in the Lightpaper or the Website to specific companies and platforms are for illustrative purposes only.

English language: The Lightpaper and the Website may be translated into a language other than English for reference purpose only and in the event of conflict or ambiguity between the English language version and translated versions of the Lightpaper or the Website, the English language versions shall prevail. You acknowledge that you have read and understood the English language version of the Lightpaper and the Website.

No Distribution: No part of the Lightpaper or the Website is to be copied, reproduced, distributed or disseminated in any way without the prior written consent of the Company or the Distributor. By attending any presentation on this Lightpaper or by accepting any hard copy of the Lightpaper, you agree to be bound by the foregoing limitations.

SUMMARY

Anchoreth is a Token developed by **AdShrink**, the largest URL monetizer and search engine for exclusive content in the world.

To date, we have more than **200,000 customers**, achieving more than **10M visitors every month**, and with a turnover of **\$2M**.

AdShrink pays its users monthly with various forms of payment, around \$ 40,000 only in Bitcoin, **which will be replaced with Anchoreth**.

Anchoreth will become our primary payment method, thus ensuring exponential growth of the currency over time.

This is just the beginning. Anchoreth will not only be our payment method, but **we will create a true eco-system of URLs** :

1. Each user will have the ability to create paid links where Anchoreth will be the primary payment method.
2. Each paid link will be placed in our search engine.
3. The blockchain behind the Anchoreth system will be used to create the first Copyright protection system on links, protecting each of our users in the creation of their links.

For this reason **Anchoreth will become a real currency used worldwide**, very far from the coins born for simple speculation, and above all it **will not be linked to the fluctuations** of Bitcoin.

Now, the **Advertising** and **Data** markets are two of the fastest growing and have reached staggering figures: **more than 1 trillion dollars a year**.

In fact, continuous growth in the number of internet users across the globe is driving the demand for internet advertising but **not all the websites can monetize their digital content and collect data** of their users in order to offer high-quality services.

This is due to many different reasons; despite that, we can solve three of these big problems by helping to:

1. **Monetize** this sizable minority category, filtering all bad traffic and offer the **highest compensation** to publishers.
2. **Instruct publishers** on how to keep safe their digital content from: web-scrapers, bot, DMCA Authority and other web masters that steal and publish the same contents.
3. **Receive payments anywhere** in the world with low fees and no delay using Anchoreth (ADSH) token. Think about South America or the Middle-East.

Anchoreth (ADSH) is the #1 DeFi URLs Ecosystem empowering People and Organizations to Monetize, Enrich and Trade their URLs for a Profit in Crypto.

In **Anchoreth** users can finally act like a **real business** in which:

- A. Users can monetize their digital content without using invasive **advertising or selling their contents** through paid links.
- B. Users have full transparency and control over their own data; in fact, with Anchoreth it is possible **to make a digital content or the entire website accessible only to specific people** using the encryption (KECCAK-256) and the security of the blockchain. Content owners can create one or more NFT (non-fungible token, denominated by us **NFT-A**, non-fungible token-access) with the user's credentials that can be gifted or sold (**NFT-A** will be found in **Metamask Wallet > Collectionables**). Tokens can be **limited** or **unlimited** for each content.
- C. All the **NFT-A tokens** of a specific file/url or of the whole website that are owned by users **can be gifted** or **traded** between other users. The **value** of each **NFT-A** token will be **calculated and suggested** by an **algorithm** that will keep **monitored demand** of the digital content.
- D. As **legitimate owners**, users that mint new NFT-As, **receive royalties** from every content-related transaction and views. Guests that owns these NFT will see their value increase in time.

ECOSYSTEM

Anchoreth Ecosystem is designed to empower both stakeholders of the Digital Contents Industry: **Content Owners** and the final **Users** that can be visitors or buyers.

ADSH Ecosystem is:

1. **OPEN** to Owners and Users
2. **TRANSPARENT and CONTROLLABLE** by Content Owners and Users that own contents
3. **PAYS ROYALTIES** to Content Owners for content-related trade and for each view
4. **SECURE**, engineered to achieve the highest level of security for its users.

Anchoreth's ecosystem is designed to overcome the main problems that plague the **Advertising and Digital Contents** industry:

Usually the advertising market is very strict for many different reasons, but we can give you an idea of why they don't want your traffic: you don't satisfy their requisites, your traffic could be bad, they don't like your content category, your content is easily replicable or that content simply shouldn't be in your possession.

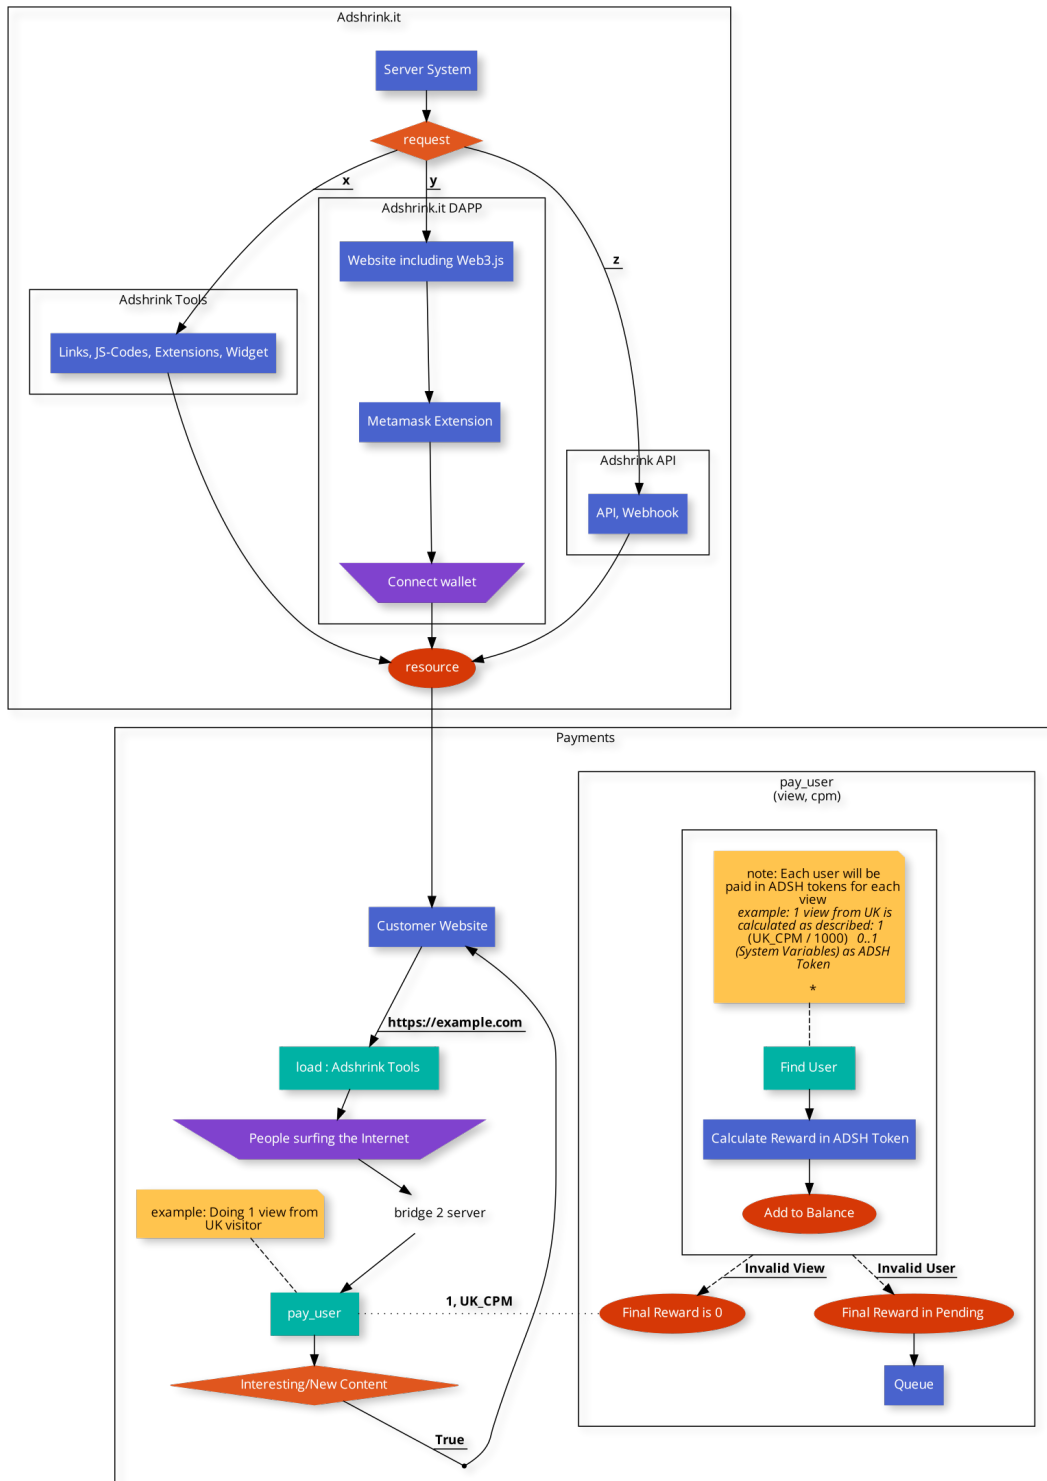

The Ethic Problem is overcome thanks to the involvement of the users - the people, instead of webmasters - as content owners, rightful central stakeholders of the ecosystem, which has full transparency, control and monetization over their contents.

Now all the users can **monetize** and **grant or revoke access** to their contents; no one can do something to prevent this action because all **access-data will be stored in the blockchain**.

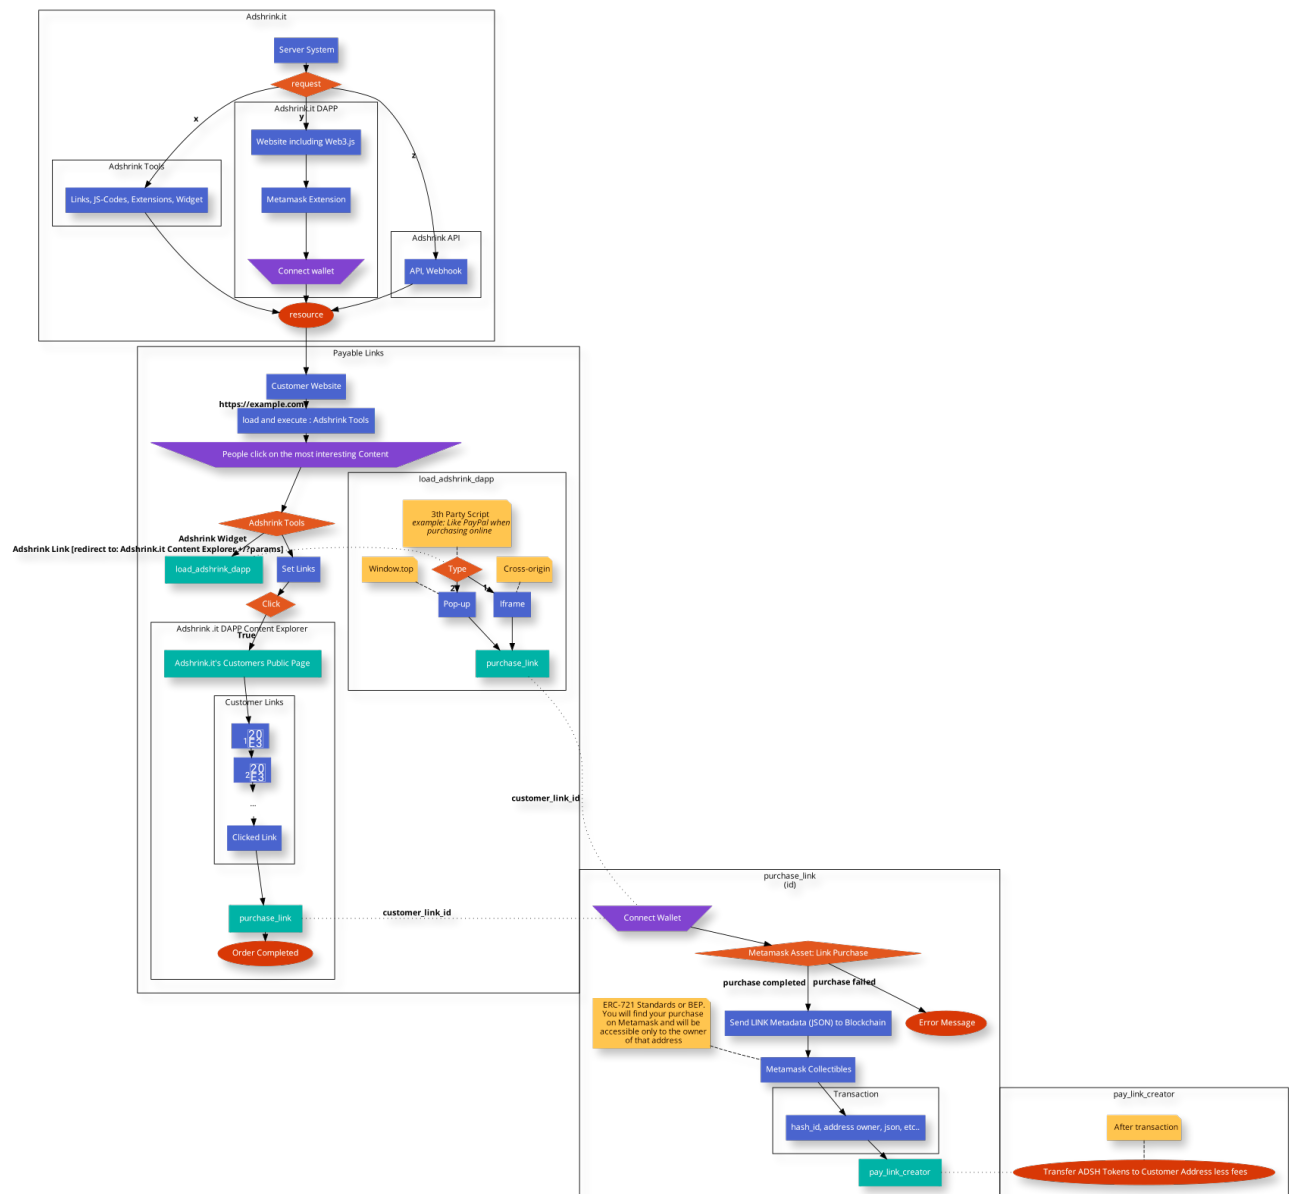

The Non-disclosure Problem is overcome thanks to the incentives that users and owners receive from updating and enriching their digital contents. Owners will earn royalties and users can trade their NFT-A using the suggested price by the algorithm.

HOW IT WILL WORK

- **PAYMENTS** - Users will get their payments in ADSH tokens

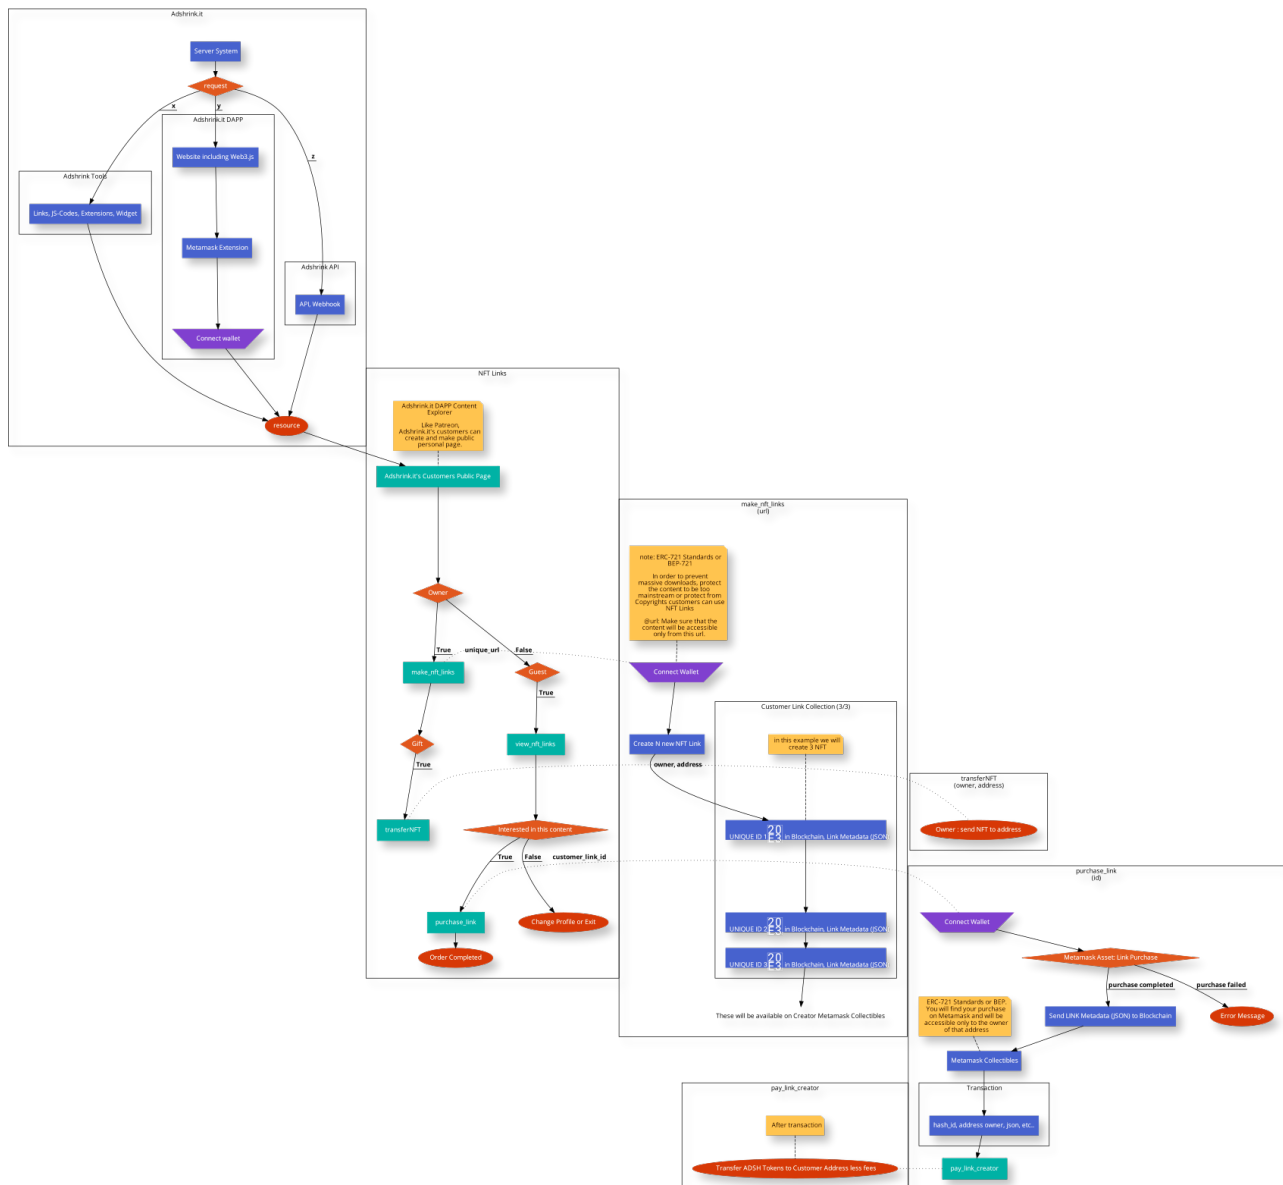

- **PAID LINKS** - Users will be able to create payable links and be paid in AD SH tokens.

- **NFT LINKS** - Users can be able to create limited exclusive NFT links, denominated by us NFT-A, that can grant and block access to a specific file/url. All the NTF-A tokens can be gifted or sold.

Example: the user can create an edition limited to 100 of an exclusive digital content. Only the 100 owners of the NFT-A tokens will be able to view and get this content and sell if not wanted anymore.

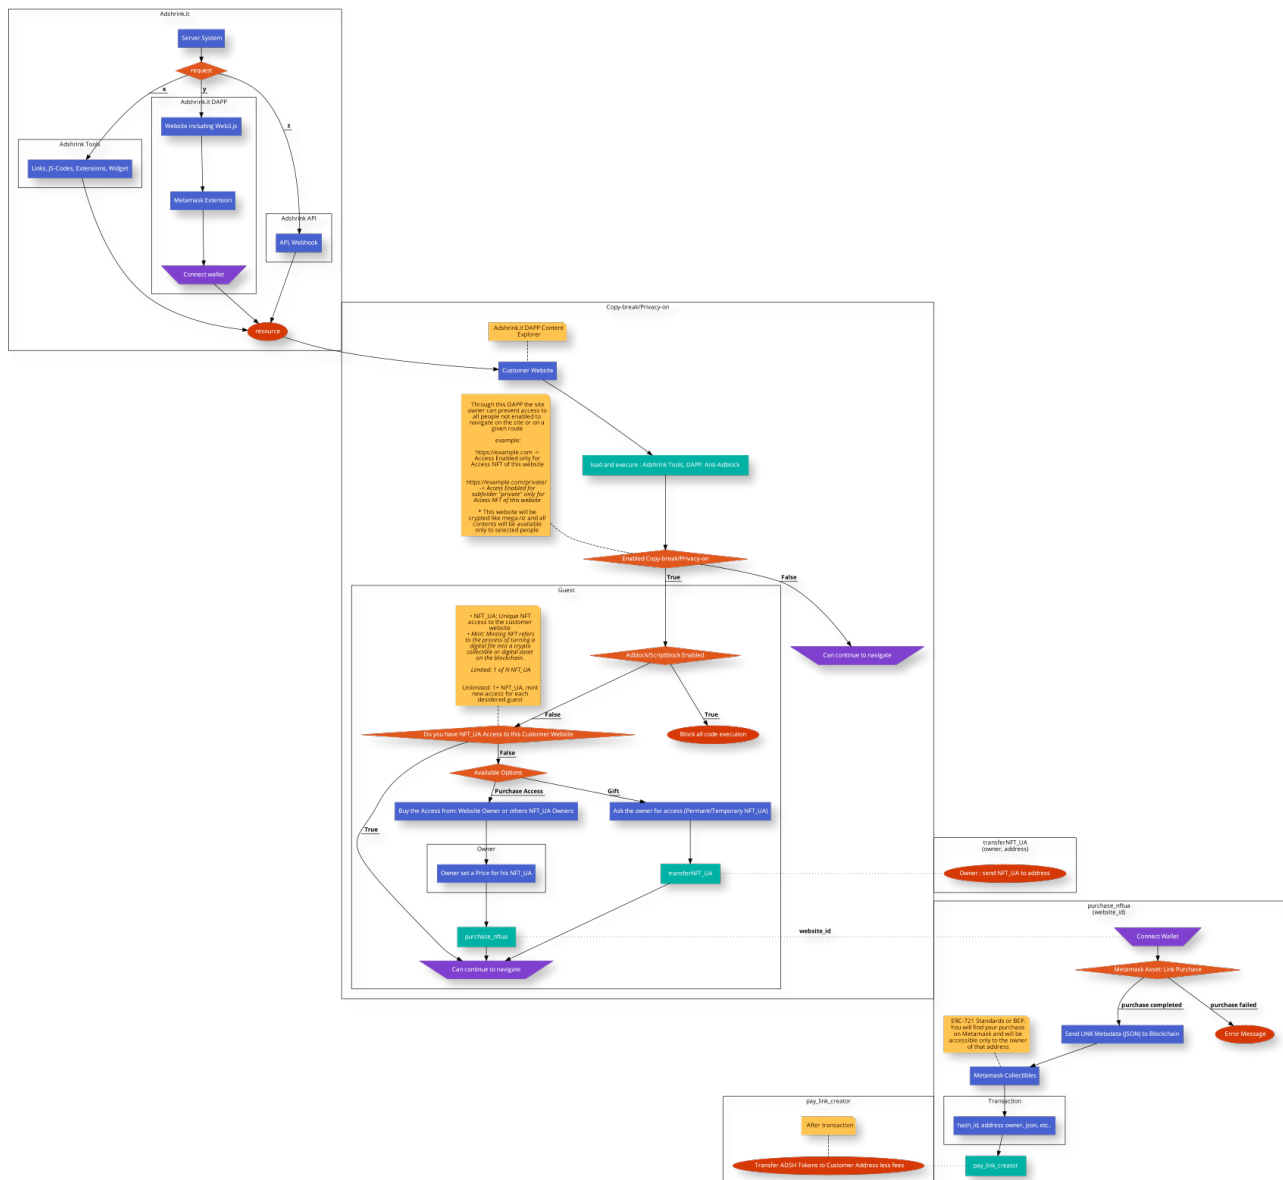

* NFT-UA is the same of NFT-A

- ENCRYPTED HOST** - Users can be able to grant or revoke the access to the **whole website** using the NFT-A tokens. By properly applying end-to-end encryption, Anchoreth achieves actual privacy by design. The website will be accessible only to the ones that will have the NFT-A stored in the blockchain. As in the example above, each NFT-A can be traded.

* useful if you: have a VIP community, deal with sensitive content or exclusive contents and more. this will prevent: scrapers, bot, DMCA authorities and other undesirable actions.

* NFT-UA is the same of NFT-A

ADVERTISING PLATFORM

Drive business results by reaching people genuinely, effectively and at the right moment.

We work with many **advertising networks** and we recognize the **good ones** from the **bad ones**. Precisely for this reason we want to create a **platform entirely dedicated** and **targeted** to all **crypto** users.

The crypto market is very chaotic but we are sure that with a **first BETA** in conjunction with **post-IDO marketing** we will be **able to drive all the requests** of our users, up to a **stable** and **lasting expansion**.

The process will be completely **automated, cost-effective, efficient** and you will be able to **REACH YOUR PUBLIC ON THE TOP CRYPTO SITES**.

How it will work

Initially, the whole system will be **simple to understand and use**. Our main goal will be to implement the main tools and features such as:

- Cost per mille (CPM) views or impressions of an advertisement. Subsequently a Smart Bid System.
- JavaScript Widget and Pixel, respectively useful, to show ADs, track and gathers data to give you an understanding of the actions users take on your site
- Higher engagement across a wide variety of ad formats Support for all of your goals - drive sales, [generate leads](#), create awareness, drive traffic to your site, and more
- Transparent, actionable data--get a 360-degree look at what's working best, and where you can improve to see your best campaign performance
- Using our Widget, your content and ads will be recommended on thousands of top websites and app
- A Professional Platform and their main sections such as: performance and statistics, campaigns, publishers/editors, tools and creativiteis

PRODUCTS

Anchoreth is a Digital Content Monetization Ecosystem composed by these Applications:

1. **AdShrink.it Tools**

Composed by JS scripts, Widgets and finally an API endpoint.

2. **AdShrink.it Platform**

A web application designed to give access and monetize all kinds of digital contents, specifically useful for collect data, filter all the bad traffic and elaborate accurate statistics.

3. **Anchoreth Wallet**

A web and mobile application (iOS and Android) designed for Users to empower them in:

- Manage and trade all owned NFT-A.
- Launch new NFT-A Collections.
- Receive tailored Offers and Gifts, based on his profile, interests and behavior.

4. **Anchoreth Web Extension & Mobile Application**

In order to ensure to our users the **maximum level of privacy and protection**, we will develop a **web extension** compatible with:

- Google Chrome, Firefox, Brave and Safari

and a **mobile application** for:

- Android and iOS

5. **Anchoreth Advertising Platform**

A web platform useful for buying **advertising space**, targeting **crypto people**.

- We will take advantage of the entire **AdShrink Network (10M+)**, and will show the banners only to crypto related users.
- It will use the best technology in the field, such as, JS Widgets to put on other websites, deep-links, AI, cookies, multiple-creativities and more.

ANTI-DUMP POLICY

Anti-dumping policy can be a set of rules that can prevent investors from falling victim to pump and dump schemes. Dumping can be referred to an occurrence when a big investor that is also known as a whale; buys a huge number of tokens with the intention of increasing the price before selling them for a large profit.

We have no particular control over this, but what we can tell our investors is that

- A **small fee** will be applied from all **off-exchange** transactions which will feed into our **Liquidity Pool**.
- The **treasury/reserve** will be **constantly fed**, each month, around **20% more** than that used to pay for the traffic generated by our users' content.
- **Any purchase of our NFTs requires the use of our ADSH Token**. If not possible, it will be purchasable anyway but the tokens will be subsequently converted into ADSH.
- **Any advertising space**, relating to our network, will be sold **exclusively** using our ADSH Token.
- We will record any type of transaction to **monitor the user's loyalty**, the use of schemes and then, eventually, **limit his purchasing power** of NFTs and advertising spaces. He will always be able to sell or buy the token but the user will have a **limit regarding the use of the services offered by Anchoreth or a higher fee will be applied for each service used**.

THE TOKEN (ADSH)

Anchoreth Token (ADSH) is a BEP-20 utility token based on the Binance Smart Chain blockchain and will function as a means to power the ecosystem through all its elements. Users receive tokens in exchange for their traffic and digital contents and can use them for purchasing products and services or exchanging them back for other tokens or fiat currencies.

Binance Smart Chain (BSC), launched in September 2020, can best be described as a blockchain that works in parallel with Binance Chain. Unlike Binance Chain, BSC offers smart contract features and EVM (Ethereum Virtual Machine) support. The design goal here was to keep Binance Chain's broadband intact while smart contracts were introduced into its ecosystem. Since the BSC is compliant with EVM, it has been released supporting the world of DApps and tools from Ethereum. The two blockchains essentially work side by side. On average, a transaction on the BSC costs (March 2021) between \$0.10 and \$0.20, and can scale to handle thousands and thousands of transactions per second; it is also possible to transfer ERC-20 tokens (the Ethereum standard) to BSC in a very simple way. The BSC underlying currency is BNB and it is possible to find it in three different forms: BNB BEP-2 on Binance Chain; BNB BEP-20 on Binance Smart Chain; BNB ERC-20 on the Ethereum network.

PancakeSwap, the DEX we will focus on, uses an automated market maker model (AMM). This means that although you can trade digital assets on the platform, there is no order book where you are matched with someone else. Instead, you trade within a liquidity pool.

The token contract address will be released soon. Make sure not to buy any fake tokens, always keep an eye out on our official social media channels.

Tokenomics	
Name	Anchoreth
Symbol	ADSH
Supply	500.000.000,00
Emission	NO NEW TOKENS WILL EVER BE CREATED

TOKEN DISTRIBUTION

The ADSH tokens will have the following distribution structure:

Seed 5.00M (1%) tokens are allocated for the private sale. Afterwards, a linear vesting schedule is applied, unlocking the 15% each month.

Pre-Sale & Initial Liquidity 55.00M (11%) tokens are allocated for the pre-sale event. Afterwards, a linear vesting schedule is applied, unlocking the 15% each month.

Anchoreth Foundation 75.00M (15%) tokens are allocated to the creators of ADSH, with a one month lock-up period. Afterwards, a 10 months linear vesting schedule is applied, unlocking the 10% each month.

Advisors & Partners 60.00M (12%) tokens are allocated for Advisors and future partnerships, with a one month lock-up period. Afterwards, a 10 months linear vesting schedule is applied, unlocking the 10% each month.

Treasury/Reserve 25.00M (5%) tokens will be reserved and used for the international Anchoreth decentralized development, involving the community in business development, technology development, marketing activities. Afterwards, a linear vesting schedule is applied, unlocking the 8,333% each month.

Reward Pool 150.00M (30%) tokens will be reserved and used for the international Anchoreth community.

Liquidity 120.00M (25%) tokens will be reserved and used for the liquidity pool.

Airdrop 5.00M (1%) tokens will be reserved and used for the airdrop.

TOKEN SALE

TIER	% on Supply	Tier Supply	Token Price	Vesting
Seed	1%	5.00M AD SH	0,020 USD	15% month
Pre-Sale + Initial Liquidity	11%	55.00M AD SH	0,025 USD	15% month
IDO	25%	125.00M AD SH	0,035 USD	Locked

DeFi

A good way to earn passive income: Staking offers a decent way for crypto enthusiasts to generate a passive income while holding coins. Also, with staking, you earn returns on your digital assets while supporting the coin's ecosystem.

It's easy to get started: Compared to mining, there are a lot less resources required to start out with staking. The simplest methods allow users to stake crypto by simply funding their wallets and locking up a part of their digital assets. As a bonus benefit of these methods, you don't need any technical skills to start staking crypto.

No to minimal startup costs: To start staking cryptocurrency, you don't need to purchase expensive hardware to maintain the network and earn a passive income. The simplest methods only require a wallet and a specific amount of coins to get started.

We offer pools where users can put their tokens, and they will return an interest rate. We developed these tools in order to optimize token usage and to keep retail in the expanding and growing ecosystem.

Incentivizing users to stake other crypto for a profit, in summary we offer to users these tools:

- **Staking Pool:** the user holds the specified amount of ADSh, receiving then a reward ADSh. This product will also be easily accessible for beginner users.
- **Liquidity Pools:** the user gives a specified amount that we will redirect on external liquidity pools, accounting a 50% in ADSh and the remaining 50% in major tokens
- **Mini Liquidity Pools:** the user puts 50% in a major token (USDT / BNB / ETH) and ADSh borrows the remaining 50% in ADSh, so it will be able to put it in a liquidity pool. Interests are paid in ADSh to the user and when the user exits he will get 50% in the original token and 50% in ADSh, so the pool will remain balanced.
(USDT / BNB / ETH) depending on the current major exchanges value we proxy.
- **NFTs Staking:** is a new way to earn passive income in the crypto world and lets NFT holders lock their assets in Anchoreth DeFi platforms to receive rewards, all without the need to sell their NFT collections.

Roadmap

■ December 2016

Adshrink MVP, Test & Development

■ September 2021

AdShrink 10M monthly visitors milestone

Anchoreth Competitive analysis, MVP, Test & Validation

■ Q1 2022

Anchoreth Tokenomics revealed

Private Sale

■ Q2 2022

Anchoreth Pre-Sale

IDO and listing on PancakeSwap

Accept and receive Anchoreth as payment via Adshrink

■ Q3/Q4 2022

Monetizable NFT link with protected content for domain owners (BETA)

Buy, Transfer & Sell NFT links

Advertising Platform (BETA)

■ Q1 2023

Anchoreth Staking Program

Monetizable NFT link for non-domain owners

Cross-Chain Integration

■ Q2 2023

Release Full Version of the private management and analytics dashboard

■ Q3 2023

Coming soon..

EXTRA

Anchoreth is backed by **Adshrink.it**, a website that has:

- 10M+ Monthly Views (distributed traffic to many hosts, one data-center)
- 200K+ Registered Users
- 8M+ Handled Urls
- 80M+ Clicks on distinct Links
- <8000 Alexa Global Ranking (High Peak)
